Education

SRM IST-Ramapuram

B.Tech · Computer Science and Engineering

2027

CGPA - 9.01/10

SBOA

Class XII - STATE BOARD · COIMBATORE

2023

Percentage - 74%

SBOA

Class X - TAMIL NADU BOARD OF SECONDARY EDUCATION · MPC ·
COIMBATORE

2021

Percentage - 0%

Experience

Aes technology | [Link](#)

Software developer · Developer · Intern

Jun 2025 - Jun 2025

Coimbatore

Web Development Intern

- Developed **responsive and user-friendly websites** using HTML, CSS, JavaScript, and React, ensuring cross-device compatibility.
- Collaborated with a team to **redesign internal tools**, improving overall user experience and interface efficiency.
- Implemented **basic backend integrations** to enhance functionality and data handling.
- Utilized **Git for version control** and contributed to streamlined development workflows.
- Gained hands-on experience in **deployment processes**, ensuring smooth application delivery.

Projects

Chat with sql | [project link](#)

· python,langchain,groq

Gen ai

- Built an **AI-driven application** that enables users to query SQL databases using natural language.
- Developed using **Streamlit, LangChain, and Groq LLM**, converting user prompts into executable SQL queries.
- Designed a system to **translate complex questions into accurate database queries**, improving accessibility for non-technical users.
- Delivered **clear, conversational responses** by processing query results into human-readable outputs.
- Enhanced usability with an **interactive UI**, allowing seamless data exploration and real-time querying.

Search Engine Using Langchain | [project link](#)

· python,langchain

gen ai

- Developed a **multi-source AI search engine** using LangChain and Streamlit for an interactive user interface.
- Integrated external tools including **Wikipedia, Arxiv, and DuckDuckGo**, enabling comprehensive and real-time information retrieval.
- Built an **agent-based system** that dynamically selects the appropriate tool to answer user queries efficiently.
- Designed a **chat-based interface** for seamless user interaction and conversational search experience.
- Leveraged LLM capabilities to **aggregate, process, and present results** in a clear, structured format for users.

Certifications

HACKERVERSE | [Link](#)

SRM UNIVERSITY

- Engaged in an intensive **24-hour hackathon**, building innovative solutions in **Web3 and emerging technologies**.
- Collaborated and networked with peers from multiple colleges to design and develop a functional prototype under time constraints.
- Enhanced skills in **rapid prototyping, problem-solving, and teamwork** within a high-pressure environment.

Acquired foundational knowledge of **DBMS concepts**, including relational models, normalization, and query optimization
Successfully achieved certification with a **consolidated score of 50%** through online assignments and proctored examination
Gained hands-on experience with **SQL and database design principles** during an 8-week course funded by the Ministry of Education, Govt. of India

- Participated in an **intensive 24-hour hackathon**, developing innovative solutions in Web3 and emerging technologies.
- Collaborated with cross-functional teams to **design and build a functional prototype under strict time constraints**.
- Engaged with peers from multiple institutions, **enhancing networking and collaborative problem-solving skills**.
- Strengthened abilities in **rapid prototyping, critical thinking, and teamwork** in a high-pressure environment.
-

Volunteering

Taught and mentored underprivileged students in **core academic subjects**, improving their understanding and learning outcomes.
Assisted with organizing **educational activities and study sessions**, ensuring an engaging and supportive learning environment.
Developed **teaching, communication, and leadership skills** while contributing to community education initiatives.

Competitions

EchoLens is a Groq-powered smart assistive system that provides real-time audio transcription and environmental awareness for visually impaired users using camera input and speech recognition.

It combines live speech-to-text transcription, text-to-speech feedback, and object/person detection into a seamless voice assistant that helps users navigate conversations and environments independently. use next js and tailwind css and use backend artificial intelligence and i want home ,about ,contact us ,support and use clerk authentication then use next js and tailwind css and backend use ai the user interface should look vibrant and so many 3D elements

Extra Curricular Activities

Swimming

Competitive Swimming | [Mytra Club]

- Participated in **[X] competitions** at district/state level.
- Demonstrated **discipline, focus, and endurance** through consistent training.

Badminton

Developed **discipline, focus, and strategic decision-making** through regular participation in badminton matches.

Languages

English [Professional Working Proficiency], Telugu [Native Proficiency], Tamil [Native Proficiency]
